

CHILL OUT

ROBO-NEWS

Tuesday, February 14, 2012

Shop Hours for this week: Mon.-Fri.: 2-8, Sat.: 10-8, Sun.: 10-5 or 8 (All weekend times subject to change.)

Nicaraguan School Supplies: Please have all supplies and money in by Saturday, February 18, 2012. Our goal is to have every person bring in \$10-20, but just bring what you can, anything is accepted.

Seattle Regional Dates are: Thursday, March 22, Friday, March 23, and Saturday, March 24.

St. Louis dates are: approximately April 26-29.

CAD: This team has been working on designing everything that will go on the chassis. They have also modified the chassis.

Electrical: This team has been laying out the basic design for the electrical board.

Programming: This team has been working on vision targeting and the ultrasonic sensor for us to be able to tell distance. They have also been working on an automatic balancing system to help us on the bridges. They have also

been working with encoders on the drive motors to use advanced control.

Shop: This team has been working on building parts for the prototypes and the basic robot. They also helped with the physical modification of the chassis.

Publicity: This team has set up a shop walkthrough for Wednesday, Feb. 15 at 6:30 and Saturday, Feb. 18 at 2:00. Most of their time has been committed to making sure that is ready to be up and running.

Website: This team is almost done updating the website.

Safety: This team has started creating a power point of competition safety in compliance to Underwriter's Laboratories.

Chairman's: This team has almost all the essay finished. They will begin the video and work on the binder after the 16th of February.

Parents please visit us at any time!
